

Small Business SEO Solutions on a Budget

For businesses with small sites of 20 pages or less.

Small Biz Business Package - \$1575

In addition to our own resources, YouCanSubmit is also able to harness the power and expertise of our parent company, the Media Collaborative Group. This enables us to provide all aspects of the integrated internet marketing strategy you need. Let's work together to maximize the potential of your site as a key marketing tool.

- Powerful online media solution for businesses who want to harness the power of their site as a key part of their marketing campaign. The Small Biz Business Package option is designed for sites of up to 20 pages.
- Add value to your site for clients and prospective clients with informative optimized content written by our professional writers. All our writers are web and SEO savvy and are native English speakers..
- Increase traffic and leads through higher search engine placements and search engine submissions. We pride ourselves on the effectiveness of our white hat SEO and linking strategies.
- Learn how to use and apply new media techniques such as social media tools and social media optimization. To increase market reach and ROI, our integrated media approach ensures your site is geared to both clients and search engines.
- Address W3C standards and accessibility issues with a full site analysis and correction of non compliant code by our expert and experienced YouCanSubmit team.
- Take advantage of our free professional online public relations coaching.

Do you want to gear up your web presence and make it count? You can! Talk to us about your needs, or order the Small Biz Economy Package today!
